

House Selection

House wines used to be the wines the owner of the house would serve close friends and valued guests at the dinner table. Nowadays it is more often than not the cheapest wines with the highest margin for the restaurateur, quite the opposite of what it is intended to be. For our selection we went back to the true meaning of the word and sourced wines we would happily serve to family and friends. Uncomplicated yet, full of character and a delicious company to our menu.

Some of the best New World examples, particularly from New Zealand, can take on similar characteristics.
